

ONWARD WEBINAR #2

'RISK ASSESSMENT OF HEPATITIS-A TRANSMISSION THROUGH THE USE OF SOCIODEMOGRAPHIC AND REMOTE SENSING DATA: A CASE STUDY OF THE STATE OF PARÁ, BRAZIL'

Mr. Philippe Riskalla Leal

Ph.D. in Remote Sensing (INPE - Brazil)

MSc in Sciences (USP - Brazil)

About the speaker:

With a degree in Biology from the Federal University of São Paulo (UNIFESP), Brazil; Philippe attained his Master's degree in Limnology from the University of Sao Paulo (USP). He is now in the final stages of his PhD in Remote Sensing from the Brazilian National Institute for Space Research (INPE).

During his Master's programme, Philippe researched the landscape ecotoxicology of hydrological reservoirs, mainly focusing on the sediment of reservoirs. Philippe's PhD work focuses on transmission of waterborne diseases and their relation to sociodemographic and environmental variables. He will present the results obtained through his studies using remote sensing techniques.
